Available starting August; open to remote support in July.

PROFESSIONAL SUMMARY

BS Information Technology graduate specializing in full-stack web and mobile development. Experienced in building Laravel, React, Flutter, Firebase, and AI-assisted applications, including cross-platform systems with authentication, dashboards, real-time data, APIs, and database integration. Completed internship experience in software testing, debugging, and mobile feature development.

SKILLS

Backend Development: PHP, Laravel, REST APIs, Firebase Cloud Functions, Python, Java

Frontend Development: JavaScript, TypeScript, React, Next.js, HTML, Tailwind CSS, Vue, Responsive UI

Mobile Development: Dart, Flutter, Native Android Basics with Java and XML

Databases & Cloud: SQL, NoSQL, MySQL, PostgreSQL, Firebase Firestore, Prisma

AI & Data Retrieval: Retrieval-Augmented Generation (RAG), Pinecone, Gemini, Embeddings, NLP

Web Design & UI/UX: Figma, Wireframing, Prototyping, User Interface Design

Tools & Deployment: Git, GitHub, GitHub Actions, CI/CD, Docker, Vercel, Firebase, Render

PROFESSIONAL EXPERIENCE

Engagis Incorporated

February 2026 - May 2026

IT Intern / Software Tester

- Tested internal web and mobile applications, documented issues, verified fixes, and supported QA workflows during development cycles.
- Assisted in debugging web modules and implementing front-end improvements to improve usability and resolve reported issues.
- Implemented and tested mobile app features, including user-facing workflows, validation, and functionality checks before release.

PROJECTS

OASP Assist: An Inquiry Assistant Application for CMU-OASP Using AI-Powered Data Retrieval

Flutter, Firebase, Pinecone, Gemini, RAG, & Firebase Cloud Functions (TypeScript)

- Developed a cross-platform inquiry assistant for CMU-OASP that answers student inquiries using AI-powered data retrieval. Implemented a RAG workflow by converting knowledge base content into embeddings, storing and searching them in Pinecone, and generating contextual responses through Gemini. Integrated Firebase services for authentication, real-time data, and backend logic.

Gym Management System with QR Scanner Integration for EZ Fitness Gym in Valencia, Bukidnon

Laravel, PHP, Blade, JavaScript, & MySQL

- Developed a gym management system with member management, attendance tracking, inventory, POS, and reporting features. Implemented QR-based member authentication to speed up check-ins and improve attendance accuracy for daily gym operations.

BukCast: A System Integration of Real-Time Weather Monitoring in Bukidnon

Laravel, PHP, Blade, JavaScript, & MySQL

- Developed a weather monitoring web application that displays real-time weather data through a dashboard and interactive map. Integrated Maps API and Weather API to show municipality-specific weather conditions, including a 4-hour weather range forecast for selected locations in Bukidnon.

JobTrackr: A Personal Job Application Tracking Web Application

Laravel, PHP, React, JavaScript, TypeScript, & PostgreSQL

- Developed focused tracking system for managing job applications, statuses, notes, and follow-ups. Its browser extension can capture job details directly from job websites and add them to JobTrackr, reducing manual entry and keeping the search pipeline organized.

EDUCATION

Central Mindanao University

2022 - 2026

Bachelor of Science in Information Technology

Latin Honor: Cum Laude | GWA: 1.551 (1.00 = highest)
